
TRIO WATER WHEEL

WS309

Trio Water Wheel is an innovative water attraction designed for water parks, hotels, urban parks, and recreational areas. Its modern design features dynamic water streams that create a visually striking arch, engaging children in interactive water play. Made from durable fiberglass, resistant to UV radiation and coated with non-toxic paints, the structure ensures safety and long-lasting use. With a height of 3145 mm, width of 1490 mm, and water flow of 1.89 l/s at a pressure of 1.7 bar, it creates gentle yet dynamic water effects. This attraction is ideal for spaces looking to provide a safe, engaging, and exciting water play experience for all ages.
