

HIGH WATER BALL

WS311

Interactive water attraction with a height of 2170 mm and a diameter of 620 mm, perfect for aquaparks, hotels, water playgrounds, and urban parks. The structure, made of durable fiberglass, is resistant to UV radiation and coated with certified, non-toxic paints, ensuring safe play for children. The device generates an impressive water dome with a flow rate of 1.3 l/s under a pressure of 1.7 bar, creating dynamic and engaging sensory play. The ergonomic design and ease of installation make it an ideal solution for enriching any recreational space.

Water Depth	0-300 mm
Water Flow	1,3 l/s
Operating Pressure	1,7 bar
Height	2170 mm
Diameter:	620 mm
Material	Fiberglass
