

CLOWN WITH A SMALL HAT

WS320

The Interactive Clown Fountain is an attractive and safe water toy, ideal for water playgrounds, aquaparks, hotels, and city parks. With a height of 2410 mm and a diameter of 705 mm, it fits perfectly in any recreational space, attracting children's attention with its colorful, friendly design. The water streams emerging from the clown's hat create a spectacular water curtain, providing experimental and dynamic play. The structure is made of fiberglass, resistant to UV radiation and weather conditions, and with a water flow of 1.3 l/s, the attraction is economical and eco-friendly. It is an excellent choice for facilities that want to provide joyful and safe water entertainment for the youngest visitors.
