

WATER CASTLE

WSZ04

Giant Water Playground is the largest and most elaborate water attraction, designed for intensive fun and maximum safety. With impressive dimensions – 5700 mm in height, 10800 mm in depth, and 16200 mm in width – it serves as the centerpiece of any water zone. Equipped with multiple interactive elements, such as slides, tipping buckets, water cannons, and splashing fountains, it provides unforgettable experiences for children of all ages. The structure, made of fiberglass, resistant to UV radiation and changing weather conditions, ensures durability and reliability. Ergonomic edges, certified non-toxic paints, and compliance with European safety standards make it the perfect attraction for aquaparks, hotels, and water playgrounds. Thanks to an efficient water flow of 35.44 l/s at 1.7 bar pressure, the structure creates spectacular water effects, encouraging active and joyful play.

Water Depth	0-300 mm
Water Flow	35,44 l/s
Operating Pressure	1,7 bar
Height	5700 mm
Depth	10800 mm
Width	16200 mm
Material	Fiberglass
